

BI-01.04 Trained, Competent and Authorised Mobile Equipment Operators

(Accountable - Operations Manager (Unassigned))

Expectations

All workers who operate mobile equipment at the mine are trained and assessed for competency.

Specify

All workers who operate mobile equipment at the mine are required to be trained and assessed for competency covering

- Correct operating techniques
- Brake and retarder use during equipment operation
- Electrical isolation
- Identification of electrical hazards
- Completion of pre-start inspections
- Preparation before servicing and maintenance
- Use of refuelling equipment and refuelling procedures
- Park-up procedures
- Identification of overheating surfaces
- Response to vehicle fires
- Site emergency requirements
- Prevention of and response to tyre fires

- Preventing and dealing with tyre heating
- Parking in the event of a flat tyre
- Recognition of events that could impact on tyre integrity (e.g. debris contact)

Implement

Mobile equipment operator training is delivered to schedule.

Monitor

Mine supervisors monitor operator practices, ensuring safe and productive operations.
