

BI-01.50 Trained and competent personnel carry out error free hose assembly

(Accountable - Operations Manager (Unassigned))

Expectations

Hoses used on mobile equipment are correctly rated and assembled.

Specify

Personnel who carry out hydraulic hose assembly are trained, competent and authorized. Assembly considers human factors errors and uses aids such as colour coding, labelling, hose and component sizing to avoid errors.

Implement

Preferred supplier.

Monitor

Quality control reports. Investigation of in-service failures.
