

BI-09.03 Strategy for testing, reviewing and maintaining the currency of the emergency response plan

(Accountable - Operations Manager (Unassigned))

Expectations

The site has a robust and current emergency response plan.

Specify

Site processes should include drills and other processes for reviewing actual and testing emergency response/preparedness status. The processes should react to any identified deficiencies in skill levels, numbers of trained individuals and availability of required tools/equipment to respond.

Emergency response planning is a well-established business process that includes mobile equipment fire incidents.

Implement

Establish emergency response plan with a review cycle that is an accountability of a senior organisational position.

Monitor

Records of drills includes responses to mobile equipment fires, considering credible failure modes.
