

## **CFM02.03 - An under-inflated tyre is re pressurised without disassembly and inspection**

Re-pressuring a tyre that has been damaged by operating while under-inflated tyre can lead to catastrophic failure.

Credible Failure mode is addressed by:

-  BI.01.10 Tyre hazard awareness for maintainers
-  BI.03.02 Protocols for all aspects of wheel assembly maintenance and tyre repair
-  BI.03.03 Safe inflation protocols including lock ring seating checks
-  BI.03.04 Loss of tyre pressure re inflation protocols
-  BI.03.21 Compressed air management - meets specifications and used safely
