

CFM03.02 - Tyres under inflated during operations

Low pressure not detected includes running flat.

Workshop to discuss how autonomous haulage low pressure tyres are managed.

Credible Failure mode is addressed by:

- 🛡 BI.00.15 Protocols for working on equipment in production areas
- 🛡 BI.01.04 Trained, Competent and Authorised Mobile Equipment Operators
- 🛡 BI.01.05 Response to alarms and other vehicle notifications - information prepared for operators
- 🛡 BI.01.11 Tyre hazard awareness for equipment operators
- 🛡 BI.04.01 Routine in service tyre inspection and pressure checks by tyre specialists
- 🛡 BI.04.02 Equipment Operators conduct prestart checks include brakes, steering, tyres and running gear
- 🛡 BI.04.03 TPMS monitors tyre pressure and temperature
- 🛡 BI.05.40 Automatic notification of abnormal tyre situation to operations
