

CFM03.05 - Sub optimal equipment operation causes tyre damage

Equipment operator technique causes tyre damage e.g. running over rocks, cornering speeds etc.

Credible Failure mode is addressed by:

- 🛡 BI.00.05 Effective contractor management processes
- 🛡 BI.00.51 Road design guidelines set minimum standards for the construction and maintenance of the road network
- 🛡 BI.01.04 Trained, Competent and Authorised Mobile Equipment Operators
- 🛡 BI.01.05 Response to alarms and other vehicle notifications - information prepared for operators
- 🛡 BI.01.11 Tyre hazard awareness for equipment operators
- 🛡 BI.02.50 Development of improved specification tyres for increased speed and payload
- 🛡 BI.05.01 Tyre management accountabilities are assigned and documented
- 🛡 BI.05.06 Regular monitoring of mobile equipment status, including tyres and defect responses required
- 🛡 BI.05.40 Automatic notification of abnormal tyre situation to operations
