

# **BI-01P.02 Task expectations are well communicated and reinforced over the work shift.**

## **Expectations**

Task performance expectations are clearly communicated at task allocation and then reinforced over the shift.

## **Specify**

Each shift there is a process to allocate tasks and reinforce task relevant mobile equipment interaction controls. There is further communication during the shift as tasks or conditions change.

## ***Implement***

Pre-shift meetings and as required communications with supervisor during the shift
