

BI-01P.07 Site specific travelling speed information prepared for vehicle operators

Expectations

Site travelling speeds by vehicle type are documented and communicated in a style that is appropriate for the audience.

Specify

Training modules for vehicle operators should include specific information travelling speed by vehicle type for all relevant scenarios.

Training should be assessed to ensure that personnel understand vehicle speed expectations:

- At crests
- On curves
- In restricted or congested areas
- When towing
- When loaded
- When conditions change

Implement

Training and assessment of vehicle operator understanding of safe travel speeds by vehicle type for a range of scenarios and conditions.
