

BI-01P.13 Sight lines and blind spots from outside - information prepared for people who work around vehicles

Expectations

Sight lines and blind spot information by vehicle type is documented and communicated to workers who interact with these vehicles in a style that is appropriate for the audience.

Specify

Training modules for personnel on site includes specific information on operator vision limits/sight lines for vehicles in use on the site.

Implement

Training and assessment for people who work around mobile equipment covers limits on vision from the operator position.

Workers undertaking tasks near/around mobile equipment have appropriate skills and PPE to perform these safely and productively.

Monitor

On-board cameras/monitoring provide permanent records of interactions.

Supervisors monitor and mentor workers - highlighting site requirements as needed.
